## Change Table selection of Discipline:

- turn off the sequencer
- press and keep the button STOP
- 2 turn on the sequencer in position "ON" On the display the writing appears "tAbLE" or "lab E" and the number of table (1 to 5)
- press START to change the number
- 5 release the button STOP to finish

## Adjusting of the time of release:

Normally the release time is 200 ms, if you have the machines for sport hunting, you should increase this time

- 1 turn off the sequencer
- 2 press and keep the button MANUAL
- 3 turn on the sequencer in position "ON" On the display the time of release appears in  $\ensuremath{\mathsf{mS}}$
- press START to increase the time of release press STOP to reduce the time of release

- release the button MANUAL to finish

## Insertion limit repetitions (only coins):

- turn off the sequencer
- 2 press and keep the button REPEAT
- 3 turn on the sequencer in position "ON"

On the display the writing appears:(new Model or old Model)

"blo.oFF" "b cc F"

"blo.tot" "b cc b"

"blo.riP" "b cc C

press START to change block

"blo oFF" = no block

"blo.riP" = block on the repetitions

"blo.tot" = block on the total

release the button REPEAT to finish

| Shoote | repetition number: | total targets |
|--------|--------------------|---------------|
| 1      | 3 repetitions      | 28 targets    |
| 2      | 5 repetitions      | 55 targets    |
| 3      | 6 repetitions      | 81 targets    |
| 4      | 7 repetitions      | 107 targets   |
| 5      | 8 repetitions      | 133 targets   |
| 6      | 9 repetitions      | 159 targets   |

Machines Test

- 0 Olimpic Trench (Machines 1-15)
- Universal course (Machines 6-10)
- 2 Double Trap (Machines 7-9)
- 3 Skeet (Machines 10-15)
